This material is confidential. Copying, publishing, or distributing without consent from QuestRMG is strictly prohibited.

# CONTENTS

This document introduces best practices to properly store and label the most common hazardous and non hazardous wastes used by collision centers in accordance to Resource Recovery and Reconciliation Act (RCRA), Department Of Transportation (DOT), Environment Protection Agency (EPA) and California Department of Toxic Substance Control (CDTSC) regulations.

Please note that some additional state and local regulations may apply.

Should you have any question, please contact your Quest Client Services Manager at 877.321.1811
